GOVERNMENT OF INDIA  
MINISTRY OF HUMAN RESOURCE DEVELOPMENT  
DEPARTMENT OF WOMEN AND CHILD DEVELOPMENT

*National Policy For The Empowerment of Women  
1996  
(Draft)*

**Introduction**

The principle of gender equality is enshrined in the Indian Constitution in its Preamble, Fundamental Rights, Fundamental Duties and Directive Principles.

Within the framework of democratic polity, our laws development policies, plans and programmes have aimed at women's advancement in different spheres. From the Fifth Five Year Plan (1974-78) onwards, there has been a

marked shift in the approach to women's issues from welfare to development. In recent years, the empowerment of women has been recognised as the central issue in determining the status of women. The National Commission for Women was set up by an Act of Parliament in 1990 to safeguard the rights and legal entitlements of women. The 73rd and 74th Amendments (1993) to the Constitution of India have provided for reservation of seats in the local bodies of Panchayats and municipalities for women, laying a strong foundation for their participation in decision making at the local levels.

India has also ratified various international conventions and human rights instruments committing to secure equal rights for women. Key among them is the ratification of the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW-1979) in 1993.

The Mexico Plan of Action (1975), the Nairobi Forward Looking Strategies (1985), the Beijing Declaration as well as the Platform for Action (1995), have been unreservedly endorsed by India for appropriate follow up.

The women's movement and a wide-spread net work of non-Government Organisations which have strong grass-roots presence and deep insight into women's concerns have inspired many initiatives for the empowerment of women.

However, there still exists a wide gap between the goals enunciated in the Constitution, legislation, policies, plans, programmes, and related mechanisms on the one hand and the situational reality of the status of women in India, on the other. This has been analysed extensively in the Report of the Committee on the Status of Women in India, "Towards Equality", 1974, and highlighted in the National Perspective Plan for Women, 1988-2000 and the Shramshakti Report, 1988.

Gender disparity manifest itself in various forms, the most obvious being the trend of continuously declining female ratio in the population in the last few decades. Social stereotyping and violence at the domestic and societal levels are some of the other manifestations. Discrimination against girl children, adolescent girls and women still persists.

*Consequently, the access of women—majority of whom are in the rural areas and in the informal, unorganised sector—to education, health and productive resources, among other, is inadequate. Therefore, they remain largely marginalised, poor and socially excluded.*

In this background, having taken stock of national and international developments and after a series of consultations with Members of Parliament, State Governments, non-Governmental Organisations, Women's Organisations, social activists, researchers and other experts in the country, this Policy has been drawn up.

The goal of this Policy is to bring about the advancement, development and empowerment of women. This is to be achieved by changing societal attitudes and elimina-

tion of all forms of gender based discrimination, active participation of women in all spheres of life, incorporation of gender perspectives, translation of de jure equality of women into defacto equality and affirmative action, as necessary.

The positive features of Indian culture and tradition which reiterate the dignity of and respect for women, will be reinforced in the endeavour to achieve social harmony. Through appropriate programmes, women and men will be made aware of their social responsibilities as change agents, their role as promoters of progressive values and respect for humanity will be emphasised therein.

The Policy will be widely disseminated so that a meaningful partnership is established with all sections of civil society, to achieve its goals.

## 2. Human Rights & Fundamental Freedoms

The de jure and defacto enjoyment of all human rights and fundamental freedoms by women on an equal basis with men shall be ensured both in letter and in spirit and all factors which impede the realization of such rights and freedoms eliminated.

## 3. Elimination of Violence against Women

All forms of violence against women, physical and mental, whether at domestic or societal levels, particularly sexual abuse and violence, including through recourse to customs, traditions or practices, shall be eliminated. Mechanisms/schemes for assistance will be created and strengthened for the rehabilitation of the victims of violence. Institutions and mechanisms responsible for elimination of violence against women and taking action against the perpetrators of such violence will be strengthened.

## 4. Ending Discrimination against Women

Recognising the equal entitlement of women and men to human rights and fundamental freedoms in all spheres, political, economic, social, cultural, civil etc. no discrimination shall be allowed in law or practice against women. Equal rights for women will be ensured in respect of access to health care, quality education at all levels, career and vocational guidance, employment, equal remuneration, occupational health and safety, social security and public office.

## 5. Elimination of Discrimination against and Violation of the Rights of The Girl Child

All forms of discrimination against the girl child and violation of her rights shall be eliminated by undertaking strong measures including punitive ones. These relate to strict enforcement of laws against pre-natal sex selection and foeticide, female infanticide, child marriage, child abuse and child prostitution. Removal of discrimination in the treatment of the girl child in the family and outside and projection of a positive image of the girl child will be actively fostered. There will be special emphasis on the needs of the girl child and earmarking of substantial investments in the areas relating to food and nutrition, health and education, including vocational education. In implementing programmes

for eliminating child labour, there will be a special focus on girl children.

#### **6. Empowerment of Women**

A synergy of development measures will be effected and affirmative action designed for the holistic empowerment of women. Women will be given complete and equal access to and control over factors contributing to such empowerment, particularly, health, education, information, life long learning for self-development, vocational skills, employment and income earning opportunities, technical services, land and other forms of property, including through inheritance and matrimony, common property resources, credit, technology and markets, etc.

#### **7. Women in Decision Making**

*Women's equality in power sharing and active participation in decision making including political decision making at all levels and in all processes will be ensured for the achievement of the goal of empowerment. All measures will be taken to guarantee women equal access to and full participation in all decision making bodies at every level, in the private and public sectors, including the legislative, executive, judicial, local, corporate, statutory bodies, as also Advisory Commissions, Committees, Boards, Trusts, etc. Affirmative action, such as reservation/quotas including in higher legislative bodies, will be considered whenever necessary, on a time bound basis.*

#### **8. Women and the Developmental Process**

Policies, programmes and systems will be established to ensure mainstreaming of women's perspectives in all developmental processes, as catalysts, participants and recipients. Co-ordinating and monitoring mechanisms will be devised to assess from time to time the progress of such mainstreaming. Women's issues and concerns will as a result be specially addressed and reflected in all concerned laws, sectoral policies, plans and programmes of action.

#### **9. Sensitization to Women's Issues**

Specially planned and well funded sensitization programmes will be conducted on a regular basis for all sections of society. There will be special focus on functionaries of the State in the executive, legislative and judicial wings and in all developmental agencies, governmental and non-governmental. These programmes will be, in a phased manner, integrated as part of all on-going training programmes, both in the public and the private sectors.

#### **10. Women and Mass Media**

Media will be used to portray a positive image of girls and women. It will strive to remove demeaning, degrading and negative, conventional stereotypical images of women and violence against women. Legislation, media policies and regulatory mechanisms, including codes of conduct etc. will be put in place to address these aspects.

#### **11. Eradicating Poverty and Ensuring Provision of Women's Basic Needs:**

##### **11.1 Poverty Eradication**

Since women comprise the majority of people below the poverty line and are very often in situations of extreme poverty, given the harsh realities of intra-household and social discrimination, macro economic policies and poverty eradication programmes will specifically address the needs and problems of such women. There will be improved implementation of such programmes as are already women oriented to have special targets for women. New programmes will be devised, based on mobilization of poor women and convergence of services, by offering them a range of economic and social options, alongwith necessary support services to enhance their capabilities.

##### **11.2 Food Security**

*In order to satisfactorily cater to the nutritional needs and requirements of households, the Public Distribution System will be strengthened. Women's participation will also be ensured in the planning, superintendence and delivery of the system.*

##### **11.3 Housing and Shelter**

Women's perspectives will be included in housing policies, planning of housing colonies and provision of shelter both in rural and urban areas. Special attention will be given for providing adequate and safe housing and accommodation for women including single women, heads of households, working women, students, apprentices and trainees. This will be in the form of special facilities such as hostels, dormitories, short stay homes and reservation in housing colonies and townships etc.

##### **11.4 Education**

Equal access to education for women and girls will be ensured. Measures will be taken to eliminate discrimination, universalise education, eradicate illiteracy, create a gender-sensitive educational system, increase enrolment and retention rates of girls and improve the quality of education to facilitate life-long learning as well as development of occupation/vocation/technical skills, by women. Sectoral time targets in existing policies will be achieved, with a special focus on girls and women.

##### **11.5 Health**

A holistic approach to women's health will be adopted and special attention will be given to the needs of women throughout their lives, including in terms of nutrition and basic services during infancy, childhood, adolescence, reproductive years and services during old age. There will be reinterpretation and redefinition of conventional concepts of work wherever necessary e.g. in the Census records, to reflect women's contribution as producers and workers.

Satellite Accounts will be prepared by Government, consistent with National Accounts to highlight women's work. This will be done by the development of appropriate methodologies.

#### **11.7 Support Services**

#### **13. Women and Science**

Programmes will be strengthened to bring about a greater involvement of women in science and technology. These will include measures to motivate girls to take up science and technology for higher education and also ensure that development projects with scientific and technical inputs involve women fully. Efforts to develop a scientific temper and awareness will also be stepped up.

#### **14. Needs of Specially Disadvantaged Women**

In recognition of the diversity of women's situations and in acknowledgement of the needs of specially disadvantaged groups, measures and programmes will be established to provide them with special assistance. These groups include women in extreme poverty, women in conflict situations, women affected by natural calamities, women in less

developed regions, dalits, tribals, minorities, the disabled, widows, *elderly women* single women in difficult circumstances, women heading households those displaced from employment, migrants, the internally displaced and prostitutes etc.
